MEMORANDUM FOR: Chief, FE/VNO/DDP

SUBJECT : Downgraded Version of "Communist
Subversion in the South Vietnamese
Army and Security Apparatus"

1. It has been OER's practice to publish downgraded versions of its CODEWORD reports whenever the major message of the report remains after the deletion of the material based on higher classification. It is especially appropriate to re-publish the referenced report because we have had several inquiries asking when the downgraded version will be available.

2. Attached is a copy of the original report edited so as to remove both the CODEWORD and background use only material. We would appreciate your office reading the revised text and indicating any additional deletions you feel are necessary.

3. I understand [] DD/OER, has spoken to [] about downgrading this report and asked that your review be expedited.
